

- A new standard in washer performance
- Freeze protection to -20°F

Specialized Chemicals

Elite Performance Windshield Washer Fluid

Description

Nothing is more important in winter months than maximum freeze protection to prevent damage to wash lines and safeguard against windshield re-freeze. Elite Performance Windshield Washer Fluid is independently tested to provide freeze protection to -20°F. Don't take chances with generic washer products, only Elite Performance offers certified protection.

Application

Prevents damage to wash lines and safe guards against windshield re-freeze.

Packaging

1 gallon

Nu-Calgon #

61115

ClenAir #

CAWW1G

Directions

Add to windshield washer reservoir. Do not add water. Dispense as needed until windshield is clear. For best results, inside of windshield should be warm before fluid is applied.
